ENGLAND

My journey began with a love for sculpture and pottery, drawn to the art of shaping raw materials into something beautiful. While living in the Middle East, I taught and exhibited primarily sculpture and paintings. Over time, that passion led me to design and produce fabrics, wallpapers, and tableware, which have become my new creative playground. However, I've always felt the pull back to sculpture and look forward to returning to it - creating wildlife-inspired and figurative pieces that bring art to life. I feel incredibly blessed to have grown this business alongside my family. Building it with my eldest daughter, Ebony - an incredibly talented and skilled young woman - has been a true privilege. My mum has been there through every high and low, offering endless support (and plenty of tissues!), while my youngest daughter, Amber, brings our designs to life as our model. It's been a journey filled with hard work, laughter, and love, and I wouldn't have it any other way.
